## INTUMESCENT PAINTS FOR STEEL STRUCTURES

**STARKEM® SRL** has developed and certified two new intumescent paints **fireblock® 2010** e **fireblock® 2018**, tested in accordance with EN 13381-8 standard.

**fireblock® 2010** e **fireblock® 2018** are water based intumescent paints certified for the protection of steel and galvanized steel load-bearing structures.

**fireblock® 2010** e **fireblock® 2018** develops, in case of fire, a thermal insulating foam that guarantees an excellent adhesion to the painted steel profiles for the duration of the fire.

**fireblock® 2010** e **fireblock® 2018**:  
THE EUROPEAN PROTECTIONS **CERTIFIED!!!**
