INTUMESCENT PAINTS FOR STEEL STRUCTURES

STARKEM® SRL has developed and certified two new intumescent paints **fireblock® 2010** e **fireblock® 2018**, tested in accordance with EN 13381-8 standard.

fireblock® 2010 e **fireblock® 2018** are water based intumescent paints certified for the protection of steel and galvanized steel load-bearing structures.

fireblock® 2010 e **fireblock® 2018** develop, in case of fire, a thermal insulating foam that guarantees an excellent adhesion to the painted steel profiles for the duration of the fire.

fireblock® 2010 e **fireblock® 2018**:
THE EUROPEAN PROTECTIONS **CERTIFIED!!!**
