

# fireblock<sup>®</sup> 2010/c

INTUMESCENT PAINT FOR REINFORCED CONCRETE AND  
PRESTRESSED REINFORCED CONCRETE STRUCTURES  
AND FOR NON-LOAD-BEARING PARTITION WALLS

**INTUMESCENT PAINT**  
CERTIFIED IN ACCORDANCE WITH EN 13381-3,  
UNI EN 1363-1 AND UNI EN 1364-1 STANDARDS

# fireblock<sup>®</sup> 2010/c

**STARKEM<sup>®</sup>** has developed and certified a new intumescent paint **fireblock<sup>®</sup> 2010/c**, tested in accordance with EN 13381-3, UNI EN 1363-1 and UNI EN 1364-1 standards.

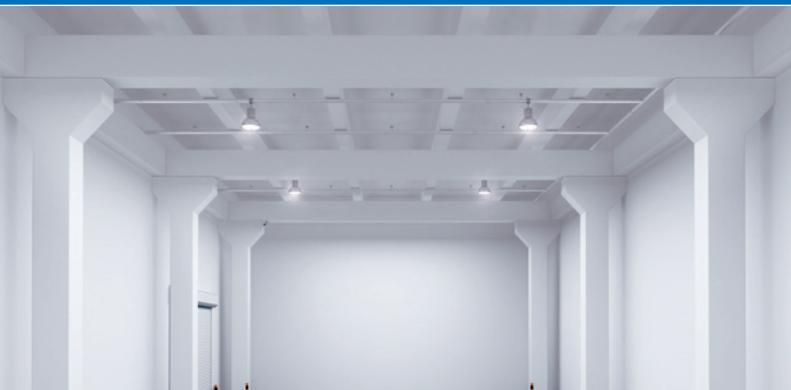

**fireblock<sup>®</sup> 2010/c** is a water based intumescent paint certified for the fire protection of reinforced concrete and prestressed reinforced concrete load-bearing structures and of non-load-bearing partition walls in blocks of brick and concrete.

**fireblock<sup>®</sup> 2010/c** develops, in case of fire, a thermal insulating foam that guarantees an excellent adhesion to the painted profiles for the duration of the fire.

**fireblock<sup>®</sup> 2010/c**: THE EUROPEAN PROTECTION **CERTIFIED!!!**

**A BIG SAFETY AGAINST THE FIRE FOR REINFORCED CONCRETE AND PRESTRESSED REINFORC**
